### **DETAILED ACTION**

Applicants amendment of the specification and claims 9, 29 and 39, paper of 2/24/2004, is acknowledged. Claims 9, 10, 12, 13, 29, 30, 39 and 40 are still at issue and are present for examination.

Applicants' arguments filed on 2/24/2004, have been fully considered and are deemed to be persuasive to overcome some of the rejections previously applied. Rejections and/or objections not reiterated from previous office actions are hereby withdrawn.

### ***Specification***

The disclosure is objected to because of the following informalities:

Figures 4 through 8 each contain nucleotide sequences that are encompassed by the definitions of nucleotide sequence and thus require a sequence identifier and this sequence identifier should be listed either in the figures themselves or in each description of the figure.

Appropriate correction is required.

### ***Allowable Subject Matter***

Claims 9, 10, 12, 13, 29, 30, 39 and 40 are allowable over the prior art.

As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).
